

3M™ Hook and Loop Fasteners

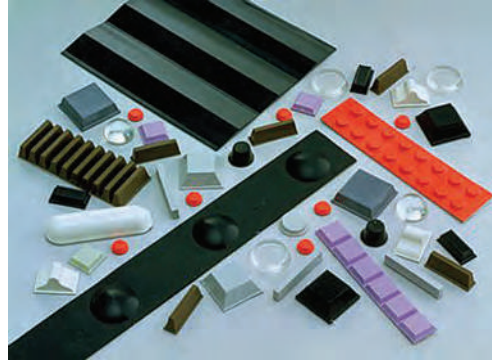

Stiff hooks on one side of the fastener mesh with pliable loops on the other side for secure closure; peel away one side for opening. Pressure sensitive adhesive version bond on contact to a variety of materials, or use plain back versions for sew on applications. Polyester options are excellent for humid outdoor conditions and have improved water resistance over nylon. Low profile versions are 75% thinner than standard products. There is even back to back version for bundling and wrapping applications. All come in a variety of colours to match your application.

3M™ Dual Lock™ Reclosable Fasteners

Mushroom-shaped stems on one side of the fastener interlock with identically shaped stems on the other side for 5X greater closure strength than hook and loop; peel apart for opening Pressure sensitive adhesive-backed versions bond on contact to a variety of flexible and rigid materials; choice of specialized adhesive properties. Choice of stems per square inch: 170, 250, 400 (higher the combined number, greater the closure strength)

3M™ Bumpon™ Protective Products

Pressure sensitive adhesive backed polyurethane products that can be used as feet, stops, spacers and protectors in many applications

Feet- On the bottom of small appliances, electronic equipment, phones, keyboards, speakers and desk accessories.

Stops- For cabinetry and woodworking.

Spacers/dampers- For automotive and board rigidity in printed circuit board assembly.

Protectors- For stacked glass and metal sheets.

TAPE

3M™ Masking Tape 203

General Purpose Masking Tape 203 has good adhesion, holding power, and provides good paint lines. Use for general purpose masking projects where surfaces are not easily damaged.
